# TONI SOYSA UNIVERSO

Toni Sousa is a Guinea born painter working from Portugal.

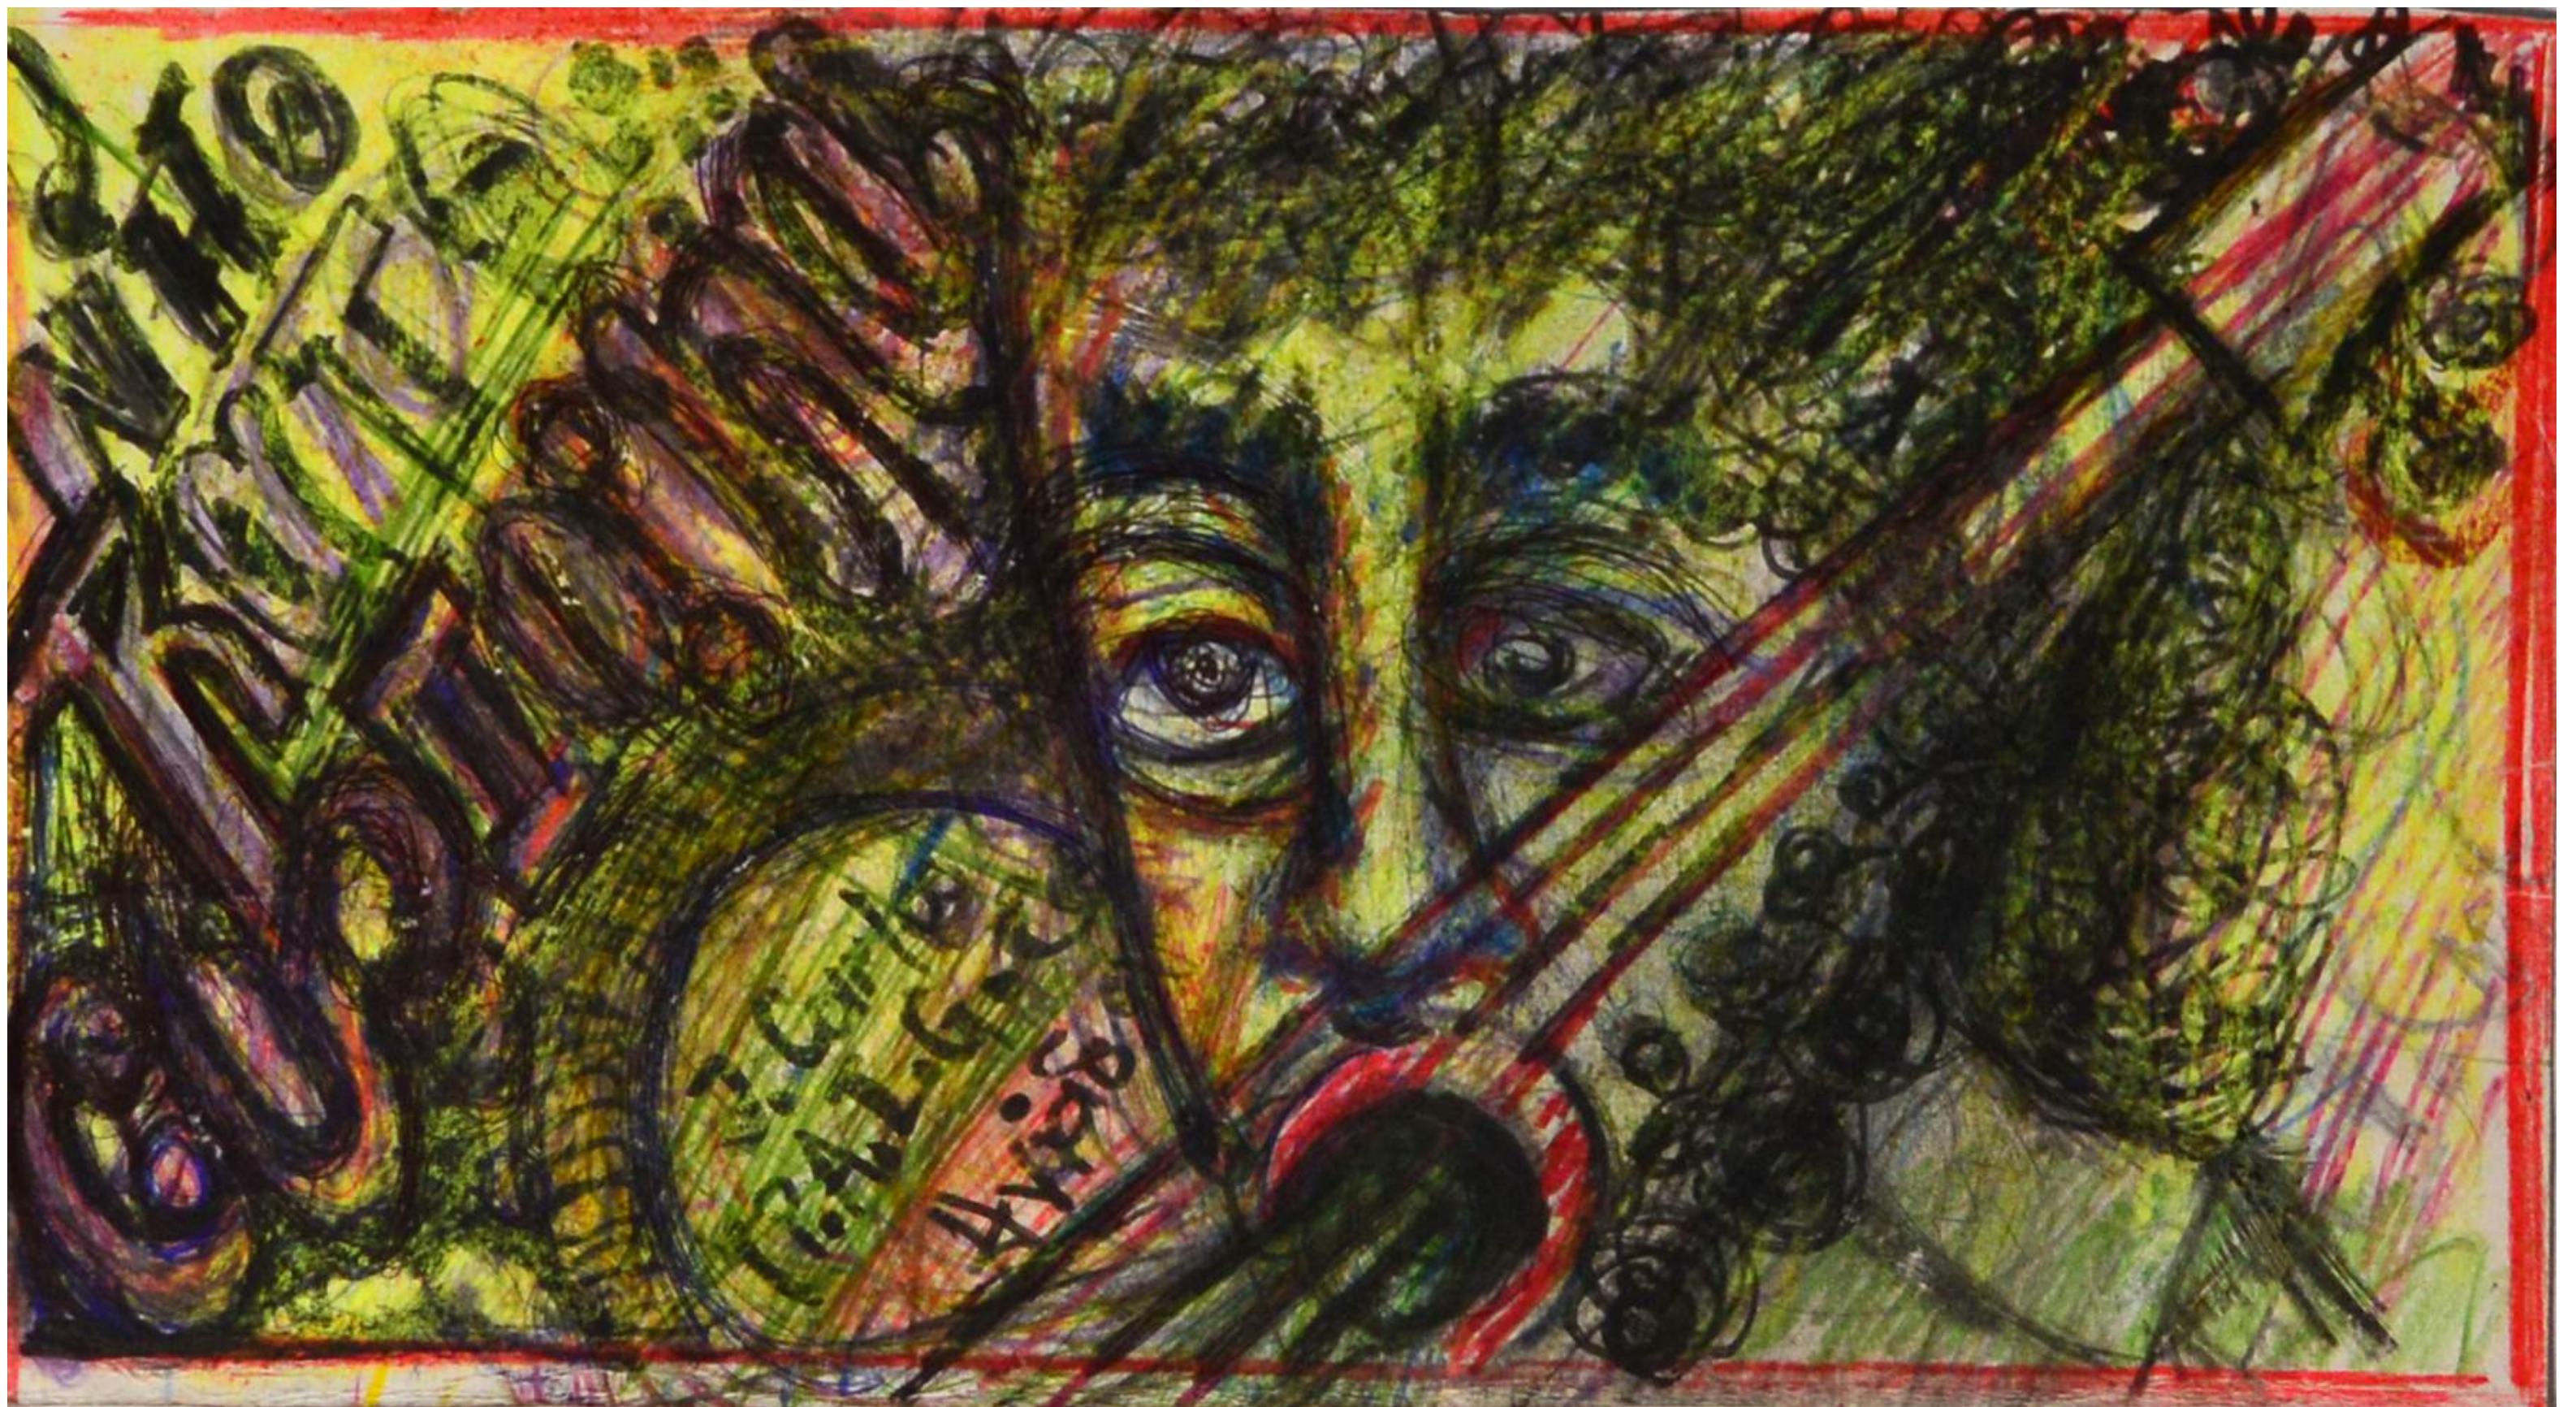

Forgoing formal art training Toni's Outsider Art stems from an innate, lifelong passion to painting which bursts through his expressive, Fauvistic style. Deploying an array of classic mediums such as graphite, pastels, aquarelles and oils.

Toni refers to Found Objects in his choice of surfaces, typically recovering articles from the streets and reacting to them in a natural, spontaneous and limpid language that portrays a delicately personal and intimate understanding.

Toni's themes span the breadth of his voyages, portraying the spirit of his roots, and deliberating insights collected throughout Europe for more than decade, however whichever subject Toni tackles in his work it is always through the persistent vision of a true dreamer.
